Guidelines for filling in of the proforma for evaluation of performance of Post-Graduate students

The Proforma is designed to evaluate the performance of post-graduate students in various subjects. The evaluation of various parameters/factors of performance is done through a numerical scale from 5 to 1 as follows:—

- 5 - Excellent
- 4 - Very Good
- 3 - Good
- 2 - Fair (just satisfactory)
- 1 - Poor

The proforma should be filled in by the Head of the Department by writing the appropriate number against each of 20 performance parameters. In case a parameter like Teaching ability of behaviour with patients is not applicable (as may happen during first year of junior residency or in preclinical subjects respectively), a comment to that effect should be entered.

Finally, the score should be totalled and divided by the number of performance parameters evaluated so that average score is arrived at. The Average Score should be 2.5 or more for a P G Student to be eligible for the incentive money.
